

Flinders View

Primary School

School & Community Partnership Agreement

Families are happy and proud of Flinders View Primary School and being part of the school community is important. As a school we need to continue to improve our relationships and communication between staff, with students, between students and home. We believe if we continue to work on enriching our sense of belonging and worth in our own community, all other areas of our school and home will benefit.

Community

We are committed to providing opportunities for all of the members of our school community to participate and contribute to our school while building strong connections with one another, by:

- Creating and maintaining parent groups/clubs
- Establishing Community projects such as Art and gardening projects for staff, students and families to participate in.
- Continuing to hold regular gatherings for people to come together.

Relationships

Relationships are the most important thing when it comes to our children and community being happy and successful. We commit to making sure we always value and work on our relationships, by:

- Create stronger partnerships with the service providers in our community.
- Advocate for our families and our school to service providers in our community to ensure our families receive the best services possible for their families.
- Hold team building activities for all our staff so that their relationships are strong and maintained.
- Introduce an Anti-Bullying program for our students.

Communication

We are committed to improving and maintaining effective communication between school and home. We will work on this through:

- our community and relationship strategies
- Staff development and engagement
- Using different methods of communication
- Keeping our families up-to-date with what is happening in our school and community
