Flinders View 2023 Emergency Management Plan- Abridge	38

Introduction

In accordance with the principles of the *Work Health and Safety Regulations 2012* under the *Work Health and Safety Act 2012* and Australian Standard, Planning for Emergencies in Facilities AS3745-2010, each Department for Education and Child Development (DECD) site must have a site Emergency Management Plan in place.

The purpose of this template document is to ensure a minimum standard of considerations in responding to an emergency or other major incident at a DECD site and should ideally be completed by a member of your Emergency Management Team, Incident Response Group or a suitably qualified or experienced individual.

Once complete, your site Emergency Management Plan is to be submitted to the Security and Emergency Management unit at DECD.SecurityIncident@sa.gov.au within DECD Central Office, Adelaide for audit and compliance as per the listed requirements within the Site Reporting Companion and mandated by the Emergency Management Framework.

Please note that scope of the internal audit is:

- 1) to confirm the existence of an approved *Emergency Management Plan* at each site
- 2) to confirm that all areas of the template have been completed
- 3) to confirm that <u>distinctly different notification tones or systems</u> exist for the various emergency response options to ensure evacuation alerts and shelter in place alerts are not misinterpreted

The Security and Emergency Management unit cannot accurately assess the quality or viability of the specific processes you document for your Incident Response Group, since they must be tailored specifically to your infrastructure, occupancy and staffing.

You are required to undertake a minimum of two (2) emergency simulations per term, which should be used to openly and honestly assess the likely success or failure of your processes. Where necessary, changes should be made to ensure any deficiencies are adequately addressed.

The Security and Emergency Management unit can provide advice to assist you in the development or amendment of your emergency plan.

As the site Emergency Management Plan must be checked for currency at least once per year, the Security and Emergency Management unit will ensure the online availability of any updated versions of this template by 31st May of each year. Note – you will only be required to complete *new* sections of the template, not the whole document.

Please note that all updated and completed plans are to be submitted prior to 31st July each year.

The completion and submission of this template supersedes any pre-existing site emergency templates and any prior displays of emergency contact information must be consistent with the information contained within this document.

Site Emergency Contacts

In the table below, list personnel situated at the site, who may be contacted in the event of an emergency situation impacting upon your site. Considerations should be given to the inclusion of details for persons/groups likely to be using the site outside of normal business hours, e.g. OSCH, sporting activities, clubs etc.

Site Role/Position	Name	Contact Number	Out of Hours Contact Number
PRINCIPAL	ANNA NAYDA	86425866	0417819706

Incident Response Group

Structure

Figure 1 below has been provided as an *example* of an Incident Response Group (IRG) and includes <u>mandatory roles</u> of an **Incident Controller**, a **Communications Officer** and an **Operations Officer**. In the case of smaller sites, the Communications Officer and Operations Officer may be the same person or, where necessary, all three roles may be the performed by the same person.

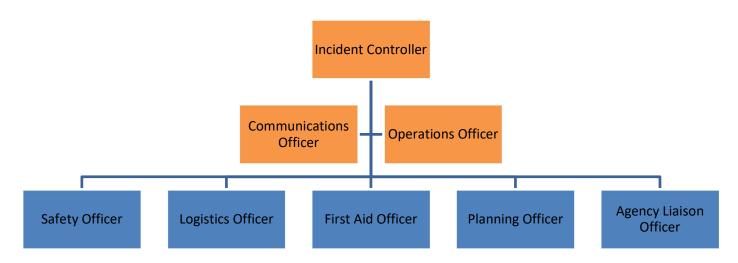

Figure 1 Example of an Incident Response Group structure, including mandatory (yellow) and optional (blue) roles

Roles	Responsibilities	
	During an emergency	Post emergency
Incident Controller (IC)	IC provides leadership, directs and coordinate resources to ensure the safety of occupants at the site	IC collates relevant information from various members of IRG and liaises with EMT to organise a debrief session. IC provided inputs to facilitate reviews of the actions taken and recommendations to amend plans.
Operations Officer (OO)	OO oversees the implementation of the relevant action plans and is responsible for managing, supervising and monitoring on-going operations.	OO liaises with EMT to assess damaged properties and to restore facilities/services.

Incident Response Group, Roles and Responsibilities Summary Table¹

¹ Detailed responsibilities and recommended skillsets, experience, disposition or qualifications (where relevant) are provided in the help sheet.

Roles	Responsibilities		
	During an emergency	Post emergency	
Communications Officer (CO)	CO manages and monitors all communications with internal and external agencies e.g. DECD Central Office, Emergency Services or Parents.	CO liaises with EMT to issue communiques for the staff, students, parents and the community, and attends to queries related to incident.	
Safety Officer (SO)	SO works closely with the other members to ensure work health and safety of occupants at the site during the incident	SO liaises with EMT to review the safety of the site and its facilities, and make recommendations to mitigate resultant risks.	
Logistics Officer (LO)	LO manages the logistical needs, including equipment, services and manpower, to facilitate the operations	LO liaises with EMT to review the status of the emergency equipment and services, and make recommendations to reinstate them.	
First Aid Officer (FAO)	FAO administers first-aid to occupants and documents occurrence of illnesses and injuries requiring treatment	FAO liaises with EMT to review the status of the first-aid equipment and make recommendations to reinstate them.	
Planning Officer (PO)	PO collects and evaluates information related to the incident and resources, and formulates strategies to mitigate identified risks for implementation by IC	PO liaises with IC and OO to review the incident and risks identified during the emergency and make recommendations to enhance the plan.	
Agency Liaison Officer (ALO)	ALO assists CO with liaison with internal and external agencies	ALO assist CO in the liaison with EMT in the issuance of communiques and to attend to queries related to the incident.	

Mandatory role within an Incident Response Group

Optional but recommended role within an Incident Response Group

(NB: Titles may differ but the responsibilities will be as described within above summary table).

If "Other", please provide further details			

Hazard Identification and Risk Assessment

Hazard identification, risk assessment and control procedures are necessary to prepare you to response effectively to any emergency situations on or around your site, in order to ensure the safety of the site and its occupants.

Using the table below, click on the check-boxes for the assessed risk associated to each of the potential hazard/emergency situation that we have pre-identified. For example, if your site is situated in a high risk bushfire location, click on the check-box in the red 'High Risk' column for 'Bushfire'; however, should your site be located within the CBD and be considered at an insignificant risk of a bushfire emergency, then click on the check-box in the corresponding white 'Insignificant Risk' column. Additional spaces have been made available to include any other additional site specific hazards relevant to your site. Where a potential high risk hazard/emergency situation is identified, the procedures developed to address such an event must be completed in the next section.

Hazard/Potential Emergency Situation	Insignificant	Low	Medium	High
	Risk	Risk	Risk	Risk*
Armed or violent intruders		\boxtimes		
Bushfires		\boxtimes		
Bomb Threats		\boxtimes		
Cattle escapees				
Chemical leaks				
Earthquakes				
Flooding		\boxtimes		
Hazardous Substances (on-site/ close to site)		\boxtimes		
Gas leaks				
Internal Fire/Smokes		\boxtimes		
Lightning Strikes		\boxtimes		
Pandemic/Communicable Diseases		\boxtimes		
Road Collisions		\boxtimes		
Severe Storms		\boxtimes		
Snakes/Pests			\boxtimes	
Other hazards				

High Risk Emergency Procedures

In the Event of an Emergency

Following your site's risk assessment and hazard identification, emergency procedures <u>must be</u> in place for each role within the Incident Response Group. For examples of procedural checklists for the mandatory roles, please refer to Appendices A, B & C. Please note these checklists can be used and adapted as per the requirements of your site(s). For ALL identified 'high risk' hazards or emergency situations, please state the specific procedures you have in place for each of these events (*EXCEPT* for 'Bushfire' whereby the Bushfire Response Plan in the next section should completed).

Example

Hazard	Emergency response
Flood	Off-site evacuation
Additional procedures	

Additional procedures

List additional procedures to complement those developed for your 'Off-site evacuation' procedures as stated in the earlier section 'Emergency Assembly Areas and Alarm Tone Procedures'

Hazard	Emergency response
Snake on site	
Additional procedures	

Additional procedures

Admin is notified and will call the snake catcher.

Students and staff will be advised to stay away from the area, Preschool children directed inside and accounted for, as per their invacuation procedure

Hazard	Emergency response	
Armed and Violent Intruder	Precautionary Building Confinement / Lockdown	
Additional procedures		
if in Admin Area, the name FRED is used for staff to know	<pre>v to call for backup/SAPOL</pre>

Additional procedures		
Leadership is notified		
Children moved into a safe area		
Adult redirected off school grounds, if needed cont	act SAPOL 131444	
lockdown procedure implemented		

Hazard	Emergency response
	Choose an item.
Additional procedures	

Hazard	Emergency response
	Choose an item.
Additional procedures	

Emergency Supplies Plan

In your response to an actual or imminent emergency, the occupants of your site may have to remain on the school grounds for a prolonged period, until the threat has been adequately addressed by the emergency services and then given the clearance to leave the site. Hence, it is important to maintain sufficient stock of emergency supplies for the expected number of occupants of the site during an emergency.

Drinking Water Supply Plan

Drinking water must be readily available at the site and it must not be reliant on the mains (water or power) for its provision. Otherwise, sufficient drinking water supply (e.g. bottled water) must be maintained at the site at all times. The stock should be checked periodically to ensure that it has not expired. Ideally, there should be about 4 litres of water allocated to each person. However, due to the limitations on the amount of water that you can store on site, **we would recommend at least 1 litre of water be allocated for each person** for the purpose of your site's emergency supplies plan.

Rainwater tanks used for drinking purposes must incorporate disinfection via an ultraviolet light irradiation system. For further information regarding drinking water, see the DECD intranet at:

https://myintranet.learnlink.sa.edu.au/operations-and-management/facilities-and-security/energy,-water-and-waste-management/water

State your site's drinking water supply plan and availability during an emergency situation

Students have water bottles in centre.

Access to water in every block.

Drink taps are located in various areas in the school.

Large water bottles can be used to fill and water filled containers can be found in the staffroom

We also have water bottles in the canteen.

Food Supply Plan

Your site may store at least a one-day **supply of non-perishable food** (e.g. biscuits, canned food, cereals) that do not require refrigeration, cooking, water or special preparation. Be sure to include a can opener and eating utensils (e.g. paper cups/plates, plastic spoon/fork) in your stock. The stock should be checked periodically to ensure that it has not expired.

State your site's food supply plan and availability during an emergency situation

Students have lunch boxes in the classrooms and there is fruit in each block

We have a canteen onsite

Breakfast material can be found in the Aboriginal Education Block - Freezers with bread

Essential Items Supply Plan During an emergency, the power and water supply from the mains, as well as internet and mobile/landline connectivity may be affected. Your site may maintain the stock of these basic items to facilitate emergency operations, alleviate the trauma experienced by the occupants and to aid the recovery process after the event. You may add further items to the list by using the spaces provided. Some of the items that you may want to include are: Battery-powered, wind-up or solar powered radio • Waterproof torch • Spare batteries for all devices (especially mobile) • First aid kit with guide book • • Toiletries (soap, handwash, alcohol wipes, toilet paper, tissues) Blankets • Candles with matches • Glow sticks (non-toxic) • • Whistle (to signal for help) • Dust masks, plastic sheeting and duct tape (for Shelter-In-Place) • Children activities (board games, colouring books, toys) • Safety vests (for identification of key personnel) Garbage bags and ties • Megaphone Add other items using space provided most staff have mobile phones • List of children, family contact details • • • • • • • • • • • • • • •

Student Collection Protocol

Students Attendance Record

All schools must have a system to record student attendance and be able to account for the presence or absence of all students during an emergency. In addition, processes must exist to ensure students are only released to authorised individuals.

Staff take folder with children's attendance- sign in and out sheets, contact details and addresses-

Provide details of your site's current system to account for students following an emergency response and any methods for corroborating student collection authorities

Students are signed in and out via our Sentral Attendance system

Preschool children are signed in and out via hardcopy roll list daily

We also use a hard copy book located in the front office area for early leavers

We have emergency contact details listed on Sentral, EYS and EDSAS

We have a hard copy of all emergency numbers for all students

Student Collection During Emergency

Emergencies may occur at any time and often without warning. In such circumstances, it may not be possible for students to be collected by their usual family member or authorised person, or indeed be permitted to make their way home in the usual manner. Sites must ensure that adequate processes are implemented to facilitate urgent changes to usual collection or release arrangements (e.g. SMS authorities permitted with agreed codeword, proactive communication to parents on Total Fire Ban days or during storm events, urgent OSHC arrangements).

Detail any specific arrangements to accommodate urgent changes to collection / release authorities during an emergency

We can send SMS messages to all our families via Sentral

We can send messages via See Saw and our school Facebook page

Bushfire Response Plan - Flinders View Primary School

2023

It is a DfE requirement that all R1 and R2 bushfire risk rated sites and sites which have identified 'Bushfire' as a potential high risk hazard/emergency (refer to Section 'Hazard Identification & Risk Assessment), to complete the Bushfire Response Plan.

Completion of this template within your site's Emergency Management Plan supersedes any previous Bushfire Response Plan updating process or documentation.

The term 'Last Resort Refuge' is identified in each Council for community members as a space or building which could be used as a place of last resort for individuals to go to and remain during the passage of fire through their neighbourhood. A Last Resort Refuge is intended to provide a place of relative safety during a bushfire but does not guarantee the survival of those who assemble there and should only be used when personal Bushfire Survival Plans cannot be implemented or have failed.

Note: No DfE sites have been identified by the CFS as a Last Resort Refuge.

Important: It is the responsibility of the site's EMT to determine trigger points and act upon them as per the site's Bushfire Response Plan. It is also useful to include several means to enable the trigger points in case one or some of these failed to function during an emergency Examples include the following:

- A CFS Watch and Act message advising of a fire within 20km radius of the township
- Receipt of a SAFECOM SMS/phone call emergency alert advising of an imminent bushfire threat

State your site's Trigger Points to prepare for movement to a Bushfire Refuge.

State the alarm tone/method used to prepare for movement to the Bushfire Refuge?

Note: The alarm tone MUST be clearly distinguishable from the other emergency alarm tones as noted in the earlier section 'Emergency Assembly Areas and Alarm Tone Procedures'.

Alarm Tone/Method Used	Duration/Pattern of Alarm Tone	
If "Other" alarm tone or duration, please provide further details		

State the location of the Bushfire Refuge.

- If it is an on-site Bushfire Refuge, please state the SAMIS Building Number and any specific facility used for the refuge (e.g. Building 1 Library).
- If it is an off-site Bushfire Refuge, please provide a detailed description and an address of the location (e.g. ABC Caravan Park located at 123 Beach Road SA 5XXX).

List other educational sites or services which utilise your Bushfire Refuge and their key contact details Other Site/Service Contact Role/Name/Mobile Site/Service Land Line Name: Name: Site/Service

	Name:

State the planned method of transport to relocate all persons away from the Bushfire Refuge and to the off-site evacuation point

none

Drinking Water Contingency Plan

Drinking water must be readily available at the Bushfire Refuge location and it must not be reliant on the mains (water or power) for its provision. Otherwise, sufficient drinking water supply must be stocked at the location during Total Fire Ban days. Ideally, there should be about 4 litres of water allocated to each person. However, we appreciate the limitations to the amount of water that you can store on site; hence, **we would recommend at least 1 litre of water be allocated for each person** for the purpose of your site's Bushfire Response Plan.

Rainwater tanks used for drinking purposes must incorporate disinfection via an ultraviolet light irradiation system. For further information regarding drinking water, see the DECD intranet at:

https://myintranet.learnlink.sa.edu.au/operations-and-management/facilities-and-security/energy,-water-and-waste-management/water

State your site's drinking water supply plan and availability during a bushfire emergency situation

Water for Ablutions/Sanitary Purposes

During an emergency, water and/or power supply from mains may be affected and a site may not have ablution water available; therefore, alternatives should be considered. Sites may consider portable options (i.e. camping toilets or 'kitty litter') for use within the Bushfire Refuge during a bushfire emergency situation.

State your site's ablution options during a bushfire emergency situation

Administrative Support Plan

Scheduled Emergency Drills

Sites must schedule emergency drills (theory or practical) relative to their specific risks. It is expected for schools and preschools to practice emergency procedures on at least two (2) occasions per term. It is important for the sites to validate ALL forms of emergency responses (i.e. Shelter-In-Place, PBC/Lockdown, On-Site Evacuation, Off-Site Evacuation and Bushfire Refuge) on at least one (1) occasion over the calendar year. For R1/R2 bushfire rated sites, they are required to schedule additional (1) Shelter-In-Place and (1) Evacuation prior to the commencement of the Fire Danger Season.

Please record schedules to be counted for the mandatory number of simulations to be performed by each site for each calendar year (i.e. 8 for non-bushfire rated sites schools and 10 for bushfire rated sites).

Emergency Response Type	Simulated Scenario (e.g. flood, fire, bomb threat)	Theory or Practical	Date Scheduled
Precautionary Building Confinement/Lockdown	armed intruder, violent person on site	Practical	1 per term
Evacuation (On Site)	fire	Practical	1 per term
Evacuation (Off Site)	fire	Practical	1 per year
Precautionary Building Confinement/Lockdown	armed intruder, violent person on site	Theory	update each year
Evacuation (On Site)	fire	Theory	update each year
Evacuation (Off Site)	fire Theory up		update each year

Appendix A1 – Incident Controller (Emergency Procedure)

Emergency Procedure Checklist: Incident Controller

The intention of this checklist is to provide a helpful guide as to the minimum requirements for actions taken in response or in anticipation of an emergency event by the mandatory role of an Incident Controller within an Incident Response Group (IRG). Your site may have additional steps to be followed and these should be listed within the spaces available.

Act	ions	Yes	No
1.	Ascertain the nature of the emergency and determine the appropriate action/alarm to be raised to initiate procedures to be followed (if not already activated)		
2.	Establish a Control Centre (for operations and communications) at suitable location, convene the Incident Response Group (IRG), define objectives, assign initial tasks to IRG members (including timelines for action and reporting) and determine next scheduled briefing time		
3.	Brief emergency services personnel upon arrival on type, scope and location of the emergency, the status of the evacuation and thereafter act on senior officer's instructions		
4.	At the next scheduled briefing, IRG members provides updates on progress of tasks, and new or additional tasks to be assigned as appropriate		
5.	Set timelines and further reporting/review of incident status.		
6.	If the incident is still 'active', repeat step 4 and 5 above.		
7.	If the incident is no longer 'active', organize debrief of incident and final report by IRG members.		
8.	Authorise the safe return of occupants when satisfied to do so and after consultation with emergency services.		
9.	Stand down IRG		
All	other responsibilities as listed below:		

Appendix A2 – Incident Controller (Post Emergency Procedure)

Emergency Post Procedure Checklist: Incident Controller

The intention of this checklist is to provide a helpful guide as to the minimum requirements for <u>post</u> procedure actions to be completed by the mandatory role of an Incident Controller within an Incident Response Group. Your site may have additional steps to be followed or may delegate some of the post procedure actions to another member of the Incident Response Group. Please list additional actions within the spaces available.

Act	tion	5	Yes	No
1.		ovide relevant information to facilitate entry into IRMS (Incident and Response Management tem)		
2.		lates information from various IRG members in preparation for a debrief of the action taken ring the emergency by the group		
3.		end the de-briefing session with IRG and Emergency Management Team (EMT) members to cuss and review the situation, plans, actions taken (or should be taken) :		
	a.	Circumstances of the incident;		
	b.	Identify the underlying cause of the incident;		
	c.	Establish whether the initial management and emergency response was implemented according to plan;		
	d.	Review the log of activities recorded and actions taken;		
	e.	Review effectiveness and adequacy of actions taken;		
	f.	Review the risk associated with the incident;		
	g.	Review the plans/actions to mitigate the risk to acceptable level;		
	h.	Identify staff or students who may be at risk, for support to aid recovery.		
All	othe	er responsibilities as listed below:		

Appendix B1 – Operations Officer (Emergency Procedure) Emergency Procedure Checklist: Operations Officer

The intention of this checklist is to provide a helpful guide as to the minimum requirements for actions taken in response or in anticipation of an emergency event by the mandatory role of an Operations Officer within an Incident Response Group. Your site may have additional steps to be followed or the Incident Controller may have delegated addition duties during an emergency for this role. These should be listed within the spaces available.

Actions	Yes	No
1. Establish an Operations Area within the Control Centre at site to manage, supervise and mon the operations.	itor 🗆	
2. Have a working mobile telephone and the emergency telephone contact lists		
3. Have site map(s)/area map detailing safest possible exits from the building(s) or away from si	ite 🗆	
4. Have a first aid kit and other necessary emergency supplies		
5. Have a list of 'Persons Requiring Additional Assistance Register' for evacuation purposes		
6. Have a list of staff who are First Aid and/or Emergency Management trained		
7. Ensure roll calls completed, occupants been accounted for and all areas evacuated		
8. Ensure utilities (power, water, gas etc.) are shut-off (where necessary or possible)		
9. Ensure availability of emergency power supply (if possible or necessary)		
10. Ensure availability of emergency supplies (drinking water, food and essential items)		
11. Ensure availability of emergency sanitary setup (e.g. kitty litter or camping toilet)		
12. Prepare setup to facilitate student collection protocol		
13. Maintain a log of events, notes and instructions		
14. Manage, supervise and monitor operations		
15. Report on situation, control progress and emerging risks		
16. Ensure safety and report on incidents/accidents		
All other responsibilities as listed below:		

Appendix B2 – Operations Officer (Post Emergency Procedure) Emergency Post Procedure Checklist: Operations Officer

The intention of this checklist is to provide a helpful guide as to the minimum requirements for <u>post</u> procedure actions to be completed by the mandatory role of an Operations Officer within an Incident Response Group. Your site may have additional steps to be followed or the Incident Controller may have delegated addition post procedure duties for this role. Please list additional actions within the spaces available.

Actions		Yes	No
1.	Review the effectiveness of the emergency management plan and prepare to provide inputs to improve its implementation for future events		
2.	Attend de-briefing session with IRG and EMT members to provide inputs on the management, supervision and monitoring of operations during the emergency situation		
3.	Liaise with EMT to assess damaged properties and to restore facilities/services		
4.	Coordinate with SO (if any) for liaison with EMT to review the safety of the site and its facilities, and make recommendations to mitigate resultant risk		
5.	Coordinate with LO (if any) for liaison with EMT to review the status of the emergency equipment and services, and make recommendations to reinstate them		
6.	Coordinate with FAO (if any) for liaison with EMT to review the status of the first-aid equipment and make recommendations to reinstate them		
All	other responsibilities as listed below:		

Appendix C1 – Communications Officer (Emergency Procedure)

Emergency Action Plan Procedure Checklist: Communications Officer

The intention of this checklist is to provide a helpful guide as to the minimum requirements for actions taken in response or in anticipation of an emergency event by the mandatory role of a Communications Officer within an Incident Response Group. Your site may have additional steps to be followed or the Incident Controller may have delegated addition duties during an emergency for this role. These should be listed within the spaces available.

Actions	Yes	No
1. Establish a Communications Area within the Control Centre at site to manage and monitor all communications with internal and external agencies		
2. Have a working mobile telephone and the emergency telephone contact lists		
3. Notify the emergency services using their emergency numbers		
4. Notify the DECD (Security, Bushfire and Emergency Management)		
5. Notify relevant parties (e.g. other sites, head office, third parties, parents)		
6. Provide information to emergency services who arrived at the school		
7. Coordinate requests for information from internal or external parties		
8. Coordinate dissemination of information to internal or external parties		
9. Maintain a log of events, communications and instructions		
10. Maintain safety		
All other responsibilities as listed below		

Appendix C2 – Communications Officer (Post Emergency Procedure)

Emergency Action Plan Post Procedure Checklist: Communications Officer

The intention of this checklist is to provide a helpful guide as to the minimum requirements for <u>post</u> procedure actions to be completed by the mandatory role of a Communications Officer within an Incident Response Group. Your site may have additional steps to be followed or the Incident Controller may have delegated addition post procedure duties for this role. Please list additional actions within the spaces available.

Ac	tions	Yes	No
1.	Review the effectiveness of the management of information and communications during the emergency situation and prepare to provide inputs to improve its implementation for future events		
2.	Attend de-briefing session with IRG and EMT members to provide inputs on the management, coordination and monitoring of communication activities during the emergency situation		
3.	Coordinate with EMT to issue communiques for the staff, students and parents/caregivers, contractors and the community		
4.	Coordinate with EMT to provide inputs or to attend to queries related to the incident		
All	other responsibilities as listed below:

Incident Response Group

Each site will have an Incident Response Group (IRG) organised during an actual or imminent occurrence of an emergency. The group will be responsible for implementing the action plans in response to various situations, in accordance to the Emergency Management Plan. **Figure 1** below shows an *example* of an Incident Response Group and includes <u>mandatory roles</u> of an Incident Controller, a Communications Officer and an Operations Officer. In the case of smaller sites, the Communications Officer and Operations Officer may be the same person or, where appropriate, all three roles may be the performed by the same person.

Roles	Responsibilities			
	During an emergency	Post emergency		
Incident Controller (IC)	IC provides leadership, directs and coordinate resources to ensure the safety of occupants at the site	IC collates relevant information from various members of IRG and liaises with EMT to organise a debrief session. IC provided inputs to facilitate reviews of the actions taken and recommendations to amend plans.		
Communications Officer (CO)	OO oversees the implementation of the relevant action plans and is responsible for managing, supervising and monitoring on-going operations.	OO liaises with EMT to assess damaged properties and to restore facilities/services.		
Operations Officer (OO)	CO manages and monitors all communications with internal and external agencies e.g. DECD Central Office, Emergency Services or Parents.	CO liaises with EMT to issue communiques for the staff, students, parents and the community, and attends to queries related to incident.		
Safety Officer (SO)	SO works closely with the other members to ensure work health and safety of occupants at the site during the incident	SO liaises with EMT to review the safety of the site and its facilities, and make recommendations to mitigate resultant risks.		
Logistics Officer (LO)	LO manages the logistical needs, including equipment, services and manpower, to facilitate the operations	LO liaises with EMT to review the status of the emergency equipment and services, and make recommendations to reinstate them.		
First Aid Officer (FAO)	FAO administers first-aid to occupants and documents occurrence of illnesses and injuries requiring treatment	FAO liaises with EMT to review the status of the first-aid equipment and make recommendations to reinstate them.		
Planning Officer (PO)	PO collects and evaluates information related to the incident and resources, and formulates strategies to mitigate identified risks for implementation by IC	PO liaises with IC and OO to review the incident and risks identified during the emergency and make recommendations to enhance the plan.		
Agency Liaison Officer (ALO)	ALO assists CO with liaison with internal and external agencies	ALO assist CO in the liaison with EMT in the issuance of communiques and to attend to queries related to the incident.

If "Other" alarm tone/alert method or duration/ Bushfire Response Pla	/pattern of alarm tone, please note following details	

The term 'Bushfire Refuge' has been adopted by DECD to reduce confusion with the terminology used by the CFS and is generally a building on-site that can provide short term shelter from a bushfire to the site population only.

The term 'Last Resort Refuge' is identified in each Council for community members as a space or building which could be used as a place of last resort for individuals to go to and remain during the passage of fire through their neighbourhood. A Last Resort Refuge is intended to provide a place of relative safety during a bushfire but does not guarantee the survival of those who assemble there and should only be used when personal Bushfire Survival Plans cannot be implemented or have failed.

Note: No DfE sites have been identified by the CFS as a Last Resort Refuge.

Site's Trigger Points to prepare for movement to a Bushfire Refuge

The alarm tone/method used to prepare for movement to the Bushfire Refuge

Alarm Tone/Method Used	Duration/Pattern of Alarm Tone
Choose an item	Choose an item

If "Other" alarm tone/alert method or duration/pattern of alarm tone, please note following details

Location of the Bushfire Refuge

Location of off-site evacuation point should the site need to evacuate the Bushfire Refuge

Planned method of transport to relocate all persons away from the Bushfire Refuge and to the off-site evacuation point

none

Drinking Water Contingency Plan

Drinking water will be available at the Bushfire Refuge location and it is not reliant on the mains (water or power) for its provision. Otherwise, sufficient drinking water supply will stocked at the location during Total Fire Ban days.

Site's drinking water supply plan and availability during a bushfire emergency situation

Water for Ablutions/Sanitary Purposes

During an emergency, water and/or power supply from mains may be affected and a site may not have ablution water available; therefore, alternatives will be available for use within the Bushfire Refuge during a bushfire.

Site's ablution options during a bushfire emergency situation

Student Collection Protocol

Student Attendance Record

All schools have systems to record students' attendance and are able to account for the presence or absence of students during an emergency. In addition, there are processes ensure students are only released to authorised individuals.

Site's system to account for students following an emergency response and any methods for corroborating student collection authorities

Students are signed in and out via our Sentral Attendance system/ Preschool – EYS

Preschool have their daily attendance sheet on site- easy access

We also use a hard copy book located in the front office area

We have emergency contact details listed on Sentral, EYS and EDSAS

We have a hard copy of all emergency numbers for all students/Children

Student Collection During Emergency

Emergencies may occur at any time and often without warning. In such circumstances, it may not be possible for students to be collected by their usual family member or authorised person, or indeed be permitted to make their way home in the usual manner. Sites have processes implemented to facilitate urgent changes to usual collection or release arrangements

Site's arrangements to accommodate urgent changes to collection / release authorities during an emergency

We can send SMS messages to all our families via Sentral.

We can send messages via See Saw and our school Face Book page
